To whom it may concern:

I'm writing because I understand you're soliciting comments on the proposed Microsoft settlement. I want you to know that I am strongly opposed to the Anti Trust attack on Microsoft. I believe that Microsoft has done nothing wrong and is being mugged by its competitors. Bill Gates and Microsoft are entitled to the fruits of their labor and property.

I use Microsoft products every day to make my living. I am not forced to do this. In the past, I've worked on products for Apple's Macintosh. In the past five years, I decided to switch to developing for Microsoft products. The idea that I was compelled to do this against my will is insulting.

Please end this cloud that is hanging over Microsoft and harmed countless people.
